NICF- New Media and Sentiment Mining (SF)

This course is aligned to the National Infocomm Competency Framework (NICF) and accredited by the SkillsFuture Singapore Agency (SSG). Participants will be issued a Statement of Attainment(s) upon successful completion of the course and assessment for the following Competency Standard(s):

- ICT-DIT-5001-1.1 Computational Modelling

NICF Course requirements

- All participants are required to attend and complete all lectures, class exercises, workshops and assessments.

- Participants will be assessed to determine if the required understanding of the course content has been achieved.

- If required, participants may need to attend additional coaching sessions and re-assessments to ensure that the required understanding is achieved.

- Participants will receive a NICF Statement of Attainment (SOA) on successful completion and passing of the assessment for the Competency Standard(s) covered in the training.

- The SOA is a nationally recognised qualification indicating the participant's competence in a particular area.

- Participants will receive e-Cert notification via email or SMS within three weeks from date of assessment.

- Participants can view / retrieve and download their e-certificate via Skillsconnect (SCN) at https://www.skillsconnect.gov.sg using **Adobe Reader software of at least version 10**. A Step-By-Step Guide is available at www.skillsconnect.gov.sg

- Please email isstraining@nus.edu.sg for assistance, if any.
